

90th Inf. Division Band
A.P.O #90
C/0 Post master
New York, New York

Dear Folks,

I must scribble a few more lines for you today. Lately have received a couple of letters from papa, one from mother, and one from Luella. Glad to hear from you all.

First of all, about myself and general well-being. Health continues to be satisfactory. You remember my mentioning the fact that we were taking medical training when I wrote about a week ago. There has been another development since that letter was written. The band has been split into three groups now and each group sent to regiment as a medical detachment. This does not, as you might suspect, mark a complete and final disintegration of the band. We remain members of the band and have been detached temporarily. Our job now however is with the medics. More details later.

How are you all getting along? I was glad to hear that some work has begun on the sheep ranch. By now you must have received the first check?

You will be getting a check for about fifty dollars one of these days. It's some money which has piled up in my billfold over in England. Wish you would deposit about \$25 of it in a bank and have it ready to draw out in case I might need it. The other 25 - sheep ranch.

Will close now and get this mailed.

Virgil.
